

“The feedback was beneficial as it gave the school something to improve on in the future.”

We will book you in on any assessments available or will work with you to keep you informed of future assessments.

You will then receive a confirmation letter of your assessment, date, time and the venue.

We will also send you a copy of the questions to help you to prepare for the assessment.

“Enjoyed preparing for the interview, as this made us realise what a lot we had going on in school.”

To apply for the award simply contact

How does an assessment work?

When you come for an assessment, you will be asked questions about your service by 2-4 young people who are assessors on the Quality Award Team.

These assessors will then record the answers given, leave the room to discuss the answers between themselves and then come and feedback their thoughts.

The assessors will give positive feedback, some ideas on improving and will let you know if you have received the award.

It is important that each service taking part tries to involve young people in ALL the assessment processes.
